

REMARKS/ARGUMENTS

Claims 6-9 are pending in the application. Claim 8 has been amended to correct a typographical error, replacing the term dispenser with the proper term disperser. The amendment is supported, for example, in the original claims and at page 4, lines 23-28 of the specification.

In the Communication, the Examiner indicates that the term "dispenser" is not supported in the specification. Applicants have addressed this typographical error and replaced that term with the supported term "disperser."

In view of the amendments and remarks, Applicants assert that the claims are now in form for allowance. Therefore, allowance of Claims 6-9 are respectfully requested.

Respectfully submitted,

By
